Regional Overview

This region covers a huge geographical area covering a number of counties and large cities. Newcastle is one of the fastest growing cities in the UK. The North East is no longer dominated by collieries, and pit heaps have been reclaimed and naturalised in to landscapes to pave the way for companies such as Nissan, Arriva and Hitachi.

Each of these areas has its own varying set of employment factors which you need to take into account when job searching. Therefore, it is beneficial for you to keep up-to-date with local business news and sign up with local job search websites to get relevant, up-to-date information to aid you in your search for employment.

Covid-19 Update

We continue to work closely with the MOD and local units to ensure that we are compliant with all COVID-19 related regulations, to ensure we protect the well-being and safety of you, our Service leavers, and our staff which is our priority.
